## PROFESSIONAL SUMMARY

---

Full Stack Web Developer and business owner with 20+ years of leadership experience delivering complex projects end-to-end across e-commerce, operations, logistics, commercial printing, and residential construction. Founder and lead developer of Legendary Collectibles, a custom platform built with Next.js, React, TypeScript, JavaScript, and PostgreSQL, including database-driven catalog workflows, pricing logic, admin tooling, and automation scripts. Known for high accountability, independent execution, and translating business requirements into reliable production systems.

## CORE TECHNICAL SKILLS

---

Frontend: Next.js (App Router), React, TypeScript, JavaScript, HTML, CSS

Backend: Node.js, REST APIs, server-side logic, integration workflows

Database: PostgreSQL, SQL, schema design, query optimization

E-commerce: Checkout flow concepts, pricing systems, inventory workflows

Tools/Operations: Git/GitHub, Linux environments, deployments, process automation

## PROFESSIONAL EXPERIENCE

---

### Legendary Collectibles — Founder / Owner & Lead Developer

*2024 – Present*

- Designed, built, and maintain a custom e-commerce platform with Next.js, React, TypeScript, and PostgreSQL.
- Implemented database-driven catalog and inventory workflows, enabling scalable product management and operational efficiency.
- Built backend endpoints and internal tooling to support pricing logic, listings workflow, and repeatable admin processes.
- Manage day-to-day operations including customer workflows, product organization, and profitability tracking.

### Norfolk Southern Railway — Freight Conductor

*2022 – 2025*

- Executed freight operations in compliance with Federal Railroad Administration (FRA) rules and safety procedures.
- Coordinated train movements and switching operations with dispatchers and crews to ensure safe, efficient operations.
- Maintained accurate documentation and operational discipline in a highly regulated environment.

### Benchmark Enterprises — Owner / Project Manager (Certified Residential Contractor)

*2015 – 2022*

- Managed residential construction projects end-to-end: design planning, budgeting, bidding, scheduling, and closeout.
- Drafted blueprints and project layouts, ensuring scope clarity and compliance with local codes.
- Oversaw business financials including payroll, AR/AP, estimating, and vendor coordination.
- Delivered projects on deadlines with consistent quality control and customer satisfaction.

### American Design And Printing — Owner / Operator

*2000 – Present*

- Operated a commercial printing business delivering signage, banners, and branded materials for B2B and B2C clients.
- Led client consultation, quoting, production scheduling, and execution with attention to quality and

deadlines.

- Created design layouts and coordinated production workflows to meet customer requirements.

## **EDUCATION & CERTIFICATIONS**

---

Certified Residential Contractor (CRC) — Florida Contractor School (2014–2015)

Associate of Science (A.S.), Medical Science — Florida SouthWestern State College (2007–2009)

## **ADDITIONAL HIGHLIGHTS**

---

- Owner-operator mindset: trusted to operate independently, deliver results, and maintain compliance in regulated environments.
- Strong business fundamentals: payroll, AR/AP, estimating, margins, customer service, and operational process improvement.
- Hands-on builder with a track record of taking projects from concept to launch and maintaining them in production.
